Overview M&E 2021-2027 (CPR / CAP Strategic Plan)

Suggestions for the basic orientation of the Evaluation Plan

- EP is **no longer part of the programme** and can be easily adapted to the needs and changing framework conditions. Take the opportunity to formulate the EP in a precise and operational way.
- Nevertheless, the EP should provide an **overarching framework**. Don't get lost in methodological details as this is the task of the evaluation experts.

Proposed parts of the EP

The evaluation plan – in order to be simple - should contain **three main parts**

1. Coverage and objectives
2. Organisational issues to be considered
3. Technical issues to be considered

Proposed topics of the EP (in short)

Parts	Topics

Technical issues	<ul style="list-style-type: none">• Technical guidance documents• Types of evaluation / topic / timing / EQs• Data availability

Fragen an die Kleingruppen zum Evaluierungsplan

- Gruppe A: Was sind aus Sicht der Verwaltungsbehörden die Herausforderungen bei der Konzeption und Implementierung des Evaluierungsplanes? (Ausschreibung/TOR/Steuerung)
- Gruppen B/C/D: Was hat sich aus Sicht der Evaluierenden bei der Konzeption und Implementierung der Evaluierungsplänen bewährt, was sollte anders / besser gemacht werden?
